

## 3D Animation & Motion Design – Munich

### Well Paid Internship this Wintersemester

video|render

Videorender GmbH is an agency for B2B Marketing with focus on the technology-sector. Our customers are mostly in mechanical engineering, electronics and software. We create virtual representations of complex processes, be it a photo-realistic representation of the product, or an interactive presentation. If you are a student who specializes on 3D animation and/or 2D motion design, then we have a rewarding internship for the winter semester of 2017 for you. The internship pays between 700 and 1.200 EUR monthly and is only available for enrolled students with an obligatory internship in their curriculum.

#### Your Task

- + Work with us on challenging projects from the beginning until the end
- + Develop creative ideas and concepts
- + Create photo-realistic 3D animations and stylized 2D animations
- + 3D visualizations with Cinema4D Studio (modelling, texturing, lighting, animation)
- + Compositing and motion design with Adobe After Effects
- + Graphic design with Adobe Photoshop and/or Illustrator

#### What you offer

- + A good working knowledge of Cinema4D (modelling and visualization)
- + The ability to use After Effects effectively for compositing and 2D motion design
- + A basic working knowledge of Adobe Photoshop
- + A good instinct for motion design, colors and coloring and shapes
- + Being able to work independently and thoroughly
- + A fundamental grasp of basic mathematics and engineering
- + Proficiency in either German or English

#### What we offer

- + A small company where your input and your ideas are valued and heard
- + An attractive monthly salary of 700-1.200 EUR
- + Be part of challenging and complex projects from the planning until the execution
- + A bright and friendly workplace of your own, with a cantina right around the corner
- + Great location, close to “Englischer Garten”, good connection to public transport
- + Assistance with finding accommodation
- + An option to come work for us after you finish your studies, or work as a student trainee

Does this sound like you? If so, we look forward to your application! Please send your application, CV and other relevant information to [jobs@videorender.de](mailto:jobs@videorender.de) (please include the reference ‘VR-03-MD’ in the subject-line).
